## **Health Department of Northwest Michigan COVID-19 Update**

### **Health Department officials looking forward to continued vaccinations, protecting area residents**

The Health Department of Northwest Michigan has administered over 45,000 doses of the COVID-19 vaccines since clinics began in December 2020.

“Last week we reached a few exciting milestones in our COVID-19 vaccination efforts! Not only did we surpass 45,000 doses administered by our health department, but all four counties within our jurisdiction have vaccination coverage of 50% or more,” said Lisa Peacock, Health Officer. “These are amazing achievements in the short period of time – just over 4 months - since our first allocation and we continue to push forward to achieve our vaccination goals,” she added.

Within the health department’s four-county jurisdiction of Antrim, Charlevoix, Emmet, and Otsego counties, 50,982 residents have received at least one dose of a COVID-19 vaccine and 42,456 residents have completed their COVID-19 vaccine series. The Health Department of Northwest Michigan vaccination data as of May 2 is as follows:

- Since December 2020, when COVID-19 vaccination clinics began, the health department has administered 45,773 total doses of COVID-19 vaccines.
- Number of vaccine doses administered last week (April 26-May 2): 2,165 doses.
- Number of vaccine doses allocated and planned for administration this week: 3,864 doses.
- Antrim, Charlevoix, Emmet and Otsego county vaccination status: 56.8% residents 16 and older with first or initial dose.

For additional vaccine administration data, please visit our [COVID-19 vaccine dashboard](#). The health department’s vaccine dashboard is updated weekly on Tuesdays.
